 Q.C. OFFICER

* We do visual comparison of test sample with standard in powder form or aqueous slurry because it is the easiest and most reliable method for control colour / whiteness.

* Any difference on the above values must be brought to our notice with in 7 days of receipt of the consignment. In case of any dispute, M.L.A. INDUSTRIES PVT. LTD. test methods shall be treated as final, unless otherwise specifically agreed in written contract between the two parties.

* The above test results are typical and indicative. This information and our technical advice whether verbal, in writing or by way of trials are given in good faith but without warranty. It does not release you from obligation to check its validity and to test our products as to their suitability for the intended process and uses. The handling application, use and processing of our products in your formulation in the products manufactured by you are beyond our control and, therefore entirely your own responsibility.
